

PARKSOLUTION

INNOVATING YOUR WORLD, FOR THOSE WHO ASPIRE TO MORE

INTERACTIVE THEATRE

Interactive Theatre combines motion, special effects, and 3D visuals with an exhilarating competition among guests. Enter the Interactive theatre, put on your glasses, grab the guns, and let the challenge begin! The winner's picture and their top score are displayed on the screen at the end. The MD Interactive comes with 3DOF platforms, complete with built-in effects like leg ticklers and vibrations for enhanced immersion. It also features 4K projectors, 5.1 surround sound, a 3D screen, and numerous environmental effects, including tornadoes, strobe lights, and bubbles. Suitable for all age groups, this attraction is offered in a 4-seat configuration.

4D THEATRE

The 4D Theatre is delighting audiences across the world. This system combines the thrill of 3DOF platform movements with built-in effects like air blasts, leg ticklers, water sprays, and vibrations. For added excitement, 4D Theatre is outfitted with 4K projectors, 5.1 surround audio, a 3D screen, and a wide array of environmental effects, including tornadoes, strobe lights, and bubbles. Suitable for all age groups, this attraction can be installed in a small space due to its compact 4-seat setup. MD Theatre is a perfect addition for theme parks, water parks, fun fairs, museums, FECs, and malls.

4D 360° THEATRE

Park Solution's 4D 360 Theatre is a flagship attraction perfect for theme parks, water parks, fun fairs, museums, family entertainment centers, and malls. The 4D Theatre 360° is equipped with advanced technology, merging an impressive 360° 3D projection with thrilling 4D environmental effects like tornadoes, strobes, bubbles, and much more. With guests seated on rotating stools, they can enjoy every movie from all directions, while Dolby surround 5.1 sound, mega bass, and 4K 3D visuals make the experience even more unforgettable.

FLYING THEATRE

Float among galaxies, soar over vast valleys, or glide just above the water—all while seated comfortably in our Flying Theatre! Guests take a seat, secure the lap bar, put on the VR headset, and embark on a thrilling virtual flight. The 3DOF pneumatic technology offers a wide range of linear movements, featuring impressive speeds and accelerations. Thanks to our patented system for recording movements and effects, the Flying Theatre is flawlessly synchronized with 360° video, surround audio, and environmental effects such as tornadoes and more. Imagination knows no bounds, allowing the Flying Theatre to be themed and customized to fit the needs of any park. With minimal space requirements and maximum value, The Flying Theatre stands as the next generation of attractions.

IMMERSIVE TUNNEL

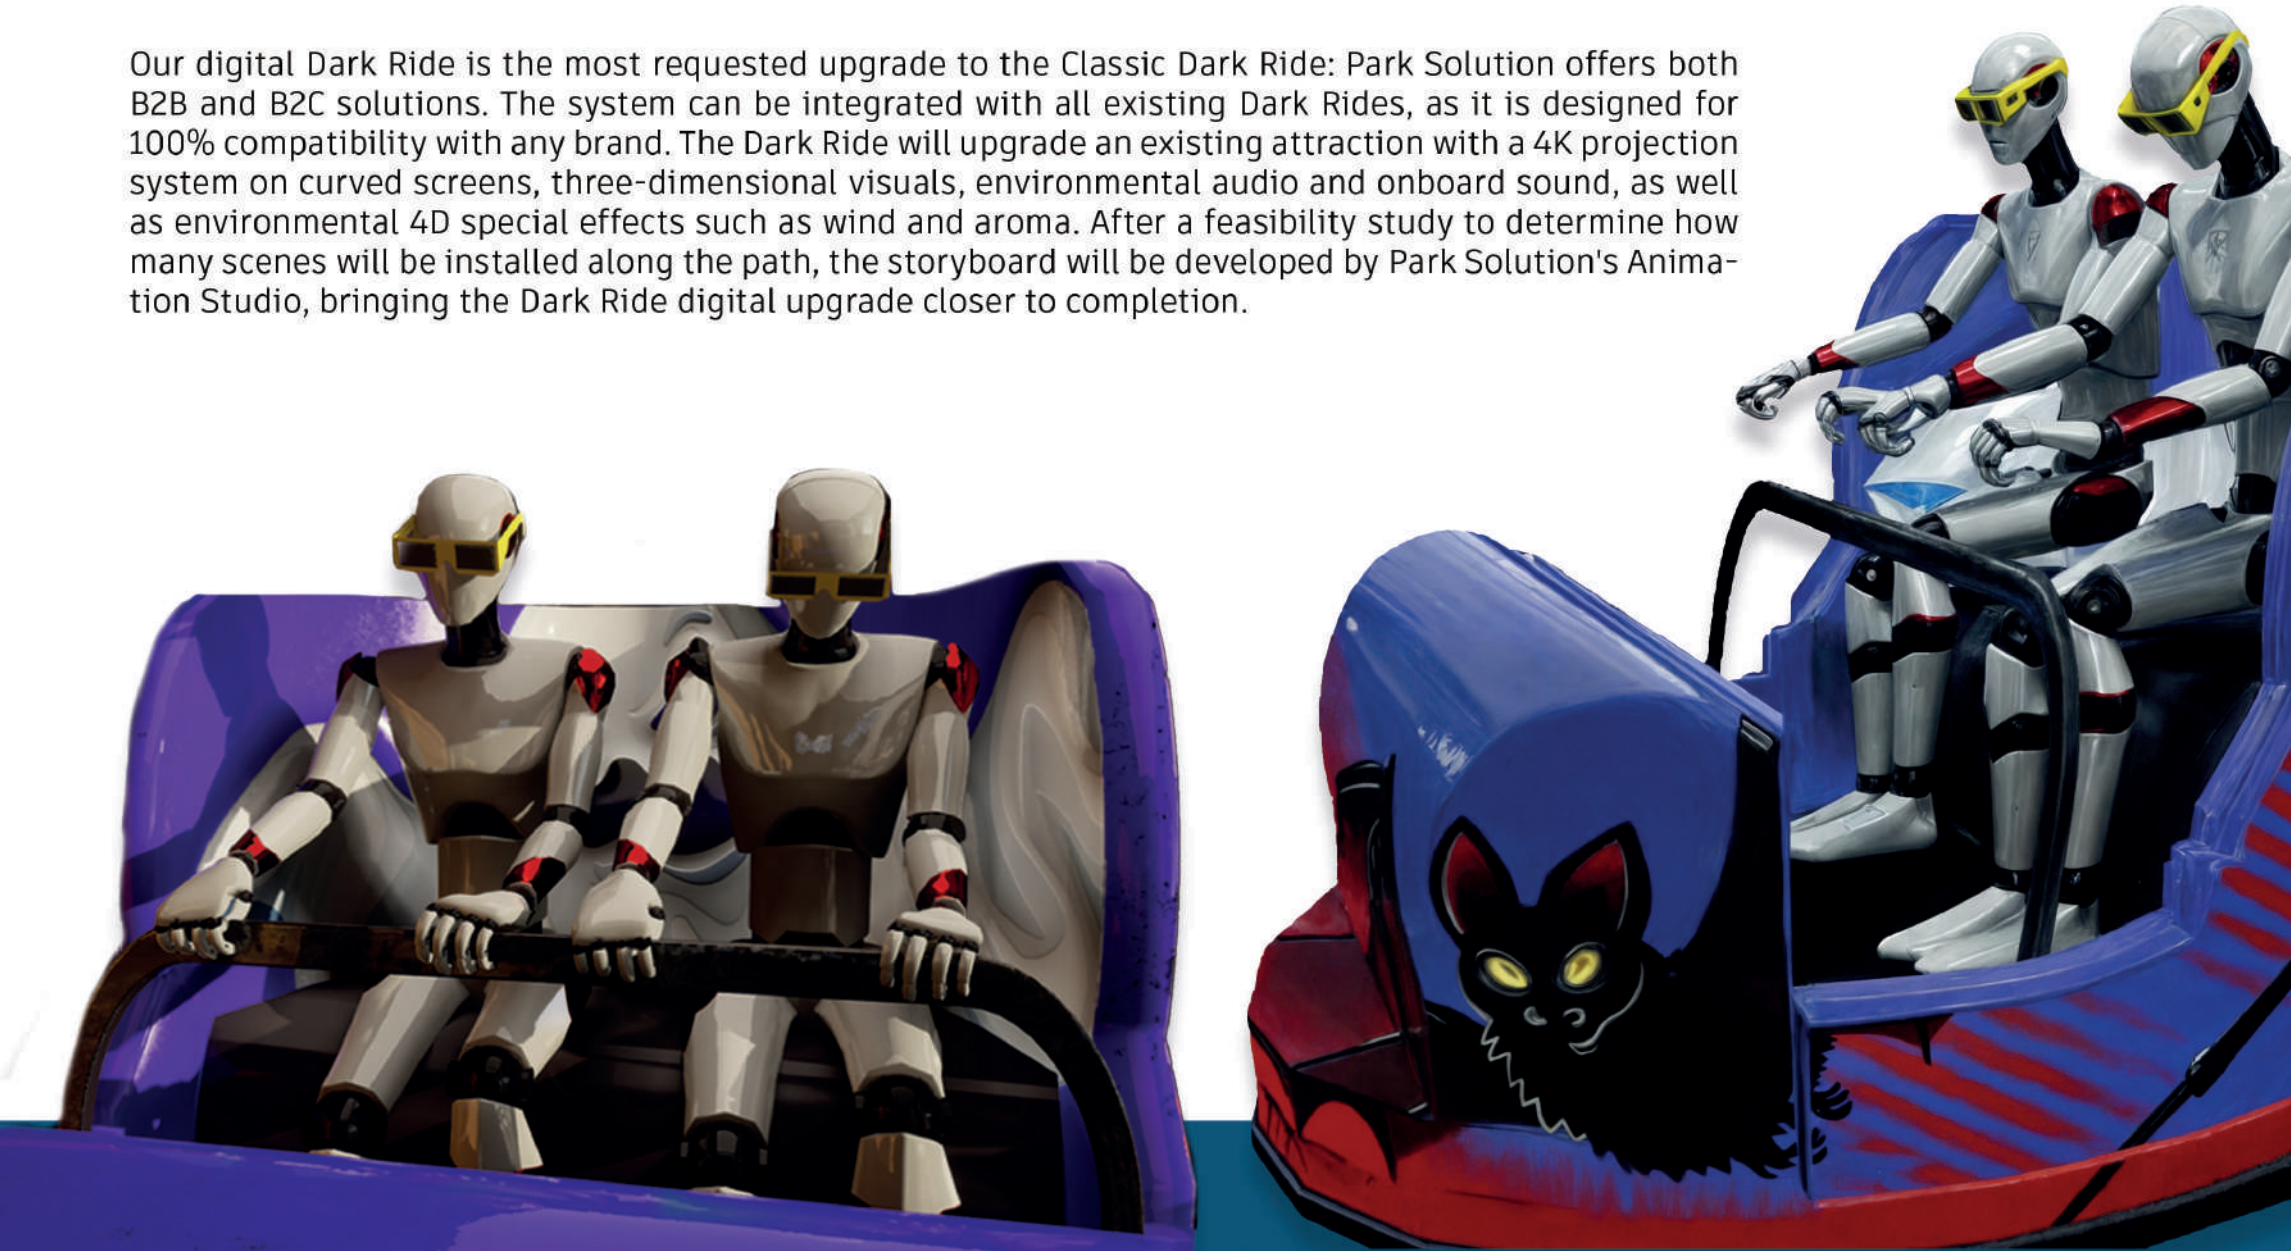

Immersive Tunnel is a dynamic attraction that offers a fully immersive experience designed to astonish guests. It is one of the main attractions that Park Solution offers to theme parks, featuring customizable theming to create fun, exciting, and thrilling adventures for all audiences. The attraction includes 3DOF simulators with 9 seats each, forming train wagons or fiberglass trams, all surrounded by a 270° panoramic screen where guests enjoy a high-quality 3D ride filled with environmental effects. Synchronization is state-of-the-art, with video, movement, vibrations, and drops perfectly coordinated with special effects such as rain, tornadoes, strobe lights, aromas, smoke, and more. The experience is further enhanced by Dolby 5.1 surround sound with mega bass and 4K 3D projection.

DARK RIDE

Our digital Dark Ride is the most requested upgrade to the Classic Dark Ride: Park Solution offers both B2B and B2C solutions. The system can be integrated with all existing Dark Rides, as it is designed for 100% compatibility with any brand. The Dark Ride will upgrade an existing attraction with a 4K projection system on curved screens, three-dimensional visuals, environmental audio and onboard sound, as well as environmental 4D special effects such as wind and aroma. After a feasibility study to determine how many scenes will be installed along the path, the storyboard will be developed by Park Solution's Animation Studio, bringing the Dark Ride digital upgrade closer to completion.

VR ARENA

The latest VR Attraction today is here: a completely immersive and astonishing VR Arena, where the guests have access to a totally empty area and after they wear the headset, the surrounding change and bring them inside the hyper reality. Requiring only 9 sq. mt, the VR Arena has a wide appeal for FECs and amusement parks as the digital content can easily be switched by clicking one button, making it possible to switch between four different experiences: Mayan Adventure, where the guests become fearless explorers; Alien Survivor, fight against the Aliens to survive; Magic Forest: where the kids can meet a new fluffy friend and Haunted Hotel: here only the bravest are admitted, which all appeal to different demographic audiences.

AUGMENTED REALITY

Augmented Reality(AR) experiences are a popular addition to attractions, and Park Solution offers AR solutions for various markets. Our AR systems integrate seamlessly into existing rides, adding immersive entertainment that bridges the physical and virtual worlds. Guests can interact with digital elements superimposed on real-world surroundings, enhancing their experience with visual effects, animated characters, and interactive challenges. Park Solution's AR solutions are customizable to fit each attraction's theme and brand identity, with minimal installation requirements suitable for various settings.

The AR experience engages audiences of all ages, adding interactivity and excitement to traditional attractions.

HOLOGRAM

Holographic technology represents the forefront of innovation, offering a gateway to experiences that were once only imaginable. It enables the creation of three-dimensional, lifelike projections that seemingly defy the laws of physics. With this technology, any object can come to life, rotating and moving in a manner that gives the viewer the sensation of floating in space, without any visible means of support.

DIGITAL ELEVATOR

The Digital Elevator is an innovative attraction that redefines the concept of vertical travel, transforming a simple elevator ride into a fully immersive adventure. Equipped with 4K projection screens on all walls, the elevator offers a 360° visual experience that transports guests to virtually any environment from the depths of the ocean to the outer reaches of space. The synchronized sound system, combined with subtle motion effects, enhances the sensation of movement, making guests feel as though they are truly traveling to far-off destinations. The Digital Elevator can be customized with different themes to suit various venues, including theme parks, malls, museums, and other entertainment spaces. This experience is suitable for guests of all ages, adding an unexpected and exciting twist to a typical elevator journey.

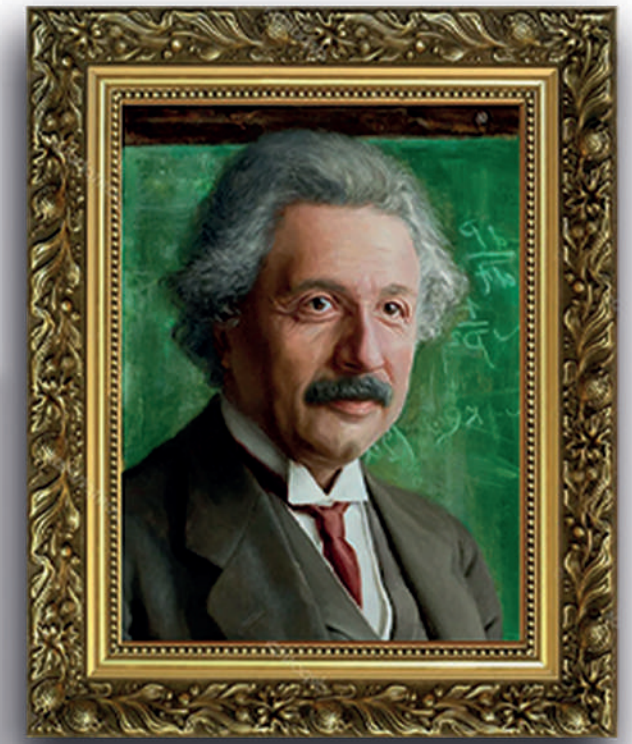

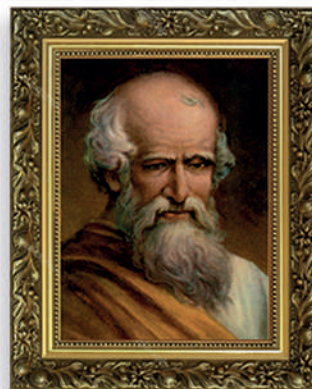

DIGITAL WINDOWS

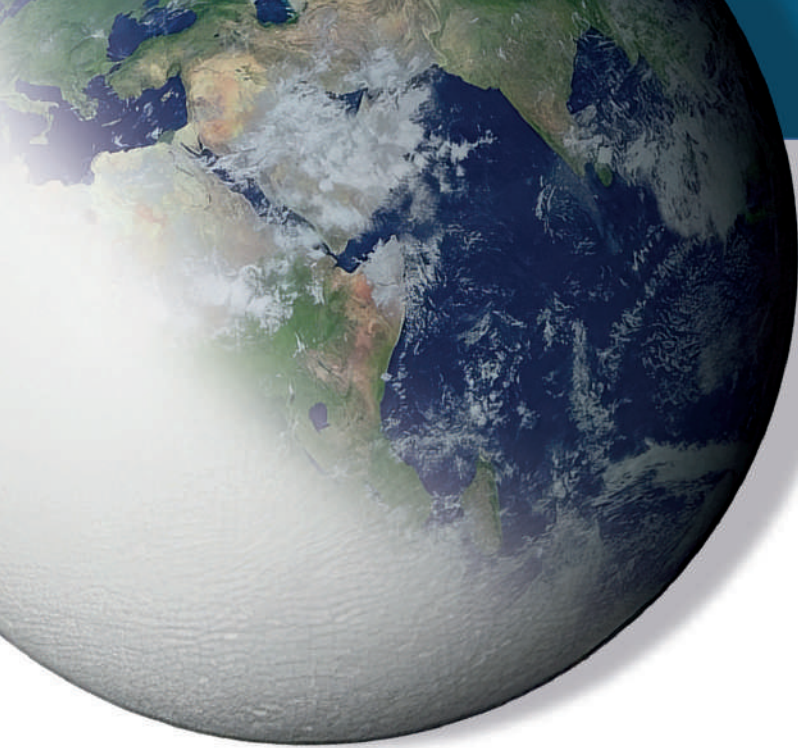

Windows, portholes or skylights will attract the attention of all guests, giving them the sensation of really looking out and seeing distant places, pristine landscapes or even submerged worlds such as inside a submarine or distant galaxies and unexplored planets aboard a spaceship.

LIVE PORTRAITS

Spectacularize welcome greetings, presentations, and teaching with the fascinating technology of animated paintings. The historical character, scientist or emperor that best suits your location will be a virtual guide that captures the attention of guests.

SPHERE MAPPING

Through complex visual projections, the structure comes to life, transforming into a stunning stage set. The projection on the Sphere is a celebration of culture, history, and beauty, as it will enable you to be the next participants in an extraordinary, engaging, and visually stunning journey.

ANIMATED BUST

A neutral bust can materialize into any figure from history that entertains or tells a story to the audience. The animated bust is highly appreciated by everyone and represents an added value.

FOOD MAPPING

The food experience has never been so technological! Creating a magical table is now possible with the food mapping experience. Designs, shapes, and colors can characterize your table and dishes to provide an innovative moment for your food point.

INTERACTIVE BOARD, WALL, FLOOR

The Interactive Board is a digital attraction that enhances the way you learn and work.

It is a large interactive touch screen that allows guests to write, draw, color and interact directly with the displayed content. Thanks to its versatility and extreme customization it is suitable for a wide range of sectors, from education to the museum, from business presentation to design.

Cleaning the sea from pollution, painting a cave painting, writing an Egyptian papyrus, or building atoms to create a molecule is now possible with interactive walls. With a simple touch from the public, you can enhance a bare or unused wall with new and innovative content.

Walking has never been so interactive on digital floors. Playing music, jumping on circles, or answering questions correctly with a simple jump has never been so fun

INTERACTIVE GAME, BOARD, TABLE

The Interactive Game Wall is a fun platform with a large touch screen for simultaneous play and exciting challenges. It can be customized for various settings, like recreation centers and malls.

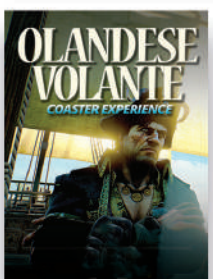

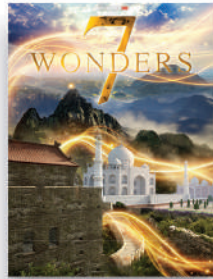

The Interactive Board is a versatile touch screen for writing, drawing, and interacting with content. It is ideal for education, museums, business, and design applications.

The Creative Table allows users to explore earth and seabed formation by moving sand, creating their own landscapes, and discovering planetary secrets.

CUSTOM LICENSED CONTENT

Custom Licensed Content allows attractions to feature unique, branded experiences. Park Solution's CGI Team is specialized in producing animated content tailored to our customers specific needs, whether it's for movies or games. The Animation Studios have skilled artists, animators, writers and modelers who work together to bring ideas to life through animation. Whether it's 2D or 3D 4D movies, animation, 360° Immersive Content or Video Mapping, we can create unique and personalized content based on the client's vision and requirements. Custom Licensed Content boosts engagement and offers guests the thrill of seeing their favorite characters come to life in a new and interactive way.
